# CORE4CE

FIND. FIX. FORTIFY.
Safeguarding Your Organization's Critical IT Data Assets

With a combination of seasoned security experts, proprietary methodologies, and unique access to cyberthreat intel, Core4ce is well positioned to address the complex and constantly changing cybersecurity challenges faced by modern organizations.

Beyond pinpointing vulnerabilities, we equip our clients with essential insights, tools, and processes necessary for robust protection.

Our mission is unequivocal: Find. Fix. Fortify.
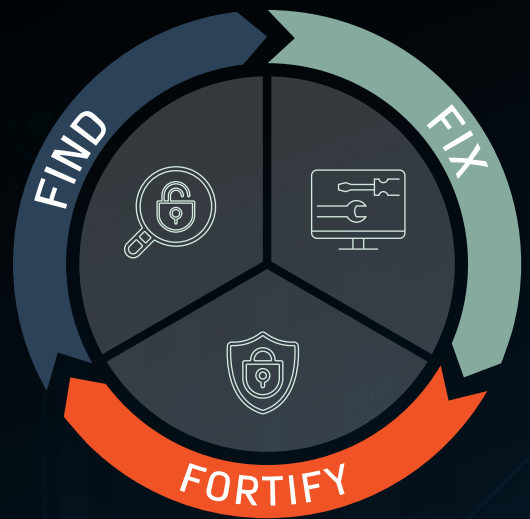

FIND CYBER VULNERABILITIES

To stay ahead of potential threats, we conduct security assessments that simulate cyberattacks and uncover vulnerabilities within your environment. We view enterprise IT the way an attacker does – as a series of opportunities waiting to be exploited.

Our suite of threat identification services includes:

- Network Penetration Testing & Red Teaming Assessments
- Application Security Assessments
- Purple Team Collaboration Assessments
- Wireless Security Assessments
- ICS/OT Assessments
- Cloud Security Assessments
- Social Engineering Assessments

FIX SECURITY ISSUES THAT ARE SURFACED

Once security risks have been discovered, organizations must mitigate them efficiently and effectively. Our remediation services address these issues from a variety of perspectives.

Our services include:

- Vulnerability mitigation and remediation
- Digital forensics and incident response (DFIR)
- Security architecture review and design
- Security consulting and advisory services
- Compliance and regulatory services
- Identity and Access Management (IAM) auditing services

FORTIFY YOUR ENTERPRISE

Organizations cannot simply rely on the identification and remediation of issues; they must constantly strive to strengthen their environment. Core4ce offers a variety of services to enhance your defensive posture and improve defense-in-depth.

Our tailored fortification solutions include:

- Security Operations Center (SOC) Services
- Threat Intelligence Services
- Continuous Assessment Program
- Security awareness training

ABOUT CORE4CE'S INFORMATION ASSURANCE PRACTICE

Our Information Assurance Practice has contracts with a comprehensive range of federal, commercial, and international clients. We pair highly technical experts with project managers who understand how to improve the overall security posture of an organization as it relates to various laws, standards, guidelines, and industry best practices.

The geographic and functional diversity of our combined clientele contributes greatly to our breadth of expertise and holistic understanding of security threats.
